International Journal of Mass Spectrometry and Ion Processes

Subject index

Ab initio
A theoretical investigation of the electron-transfer reactions of the SiF_3^{2+} dication with the rare gases, neon, argon, krypton and xenon 57
SIFDT study of the SO_2^+/H_2 H-atom abstraction reaction 79
Ab initio calculations
Temperature-programmed desorption of water from fumed silica, titania, silica/titania, and silica/alumina 161
Amines
Proton affinities of phenylalkylamines by the kinetic method 123
Amino acids
A new approach to the gas phase chemistry of ternary transition metal complexes: ion-beam induced reactions 71

Branching ratios
Deuterium exchange in the systems of H_2O^+/H_2O and H_3O^+/H_2O 1

Charge exchange
Deuterium exchange in the systems of H_2O^+/H_2O and H_3O^+/H_2O 1
Charge-reversal mass spectrometry
Mass spectrometry as a tool to probe the gas-phase reactivity of neutral molecules 181
Charge separation reaction
First direct observation and identification of the smaller fragment ion in a metastable asymmetric charge separation reaction L1
Charge transfer
SIFT studies of the reactions of H_3O^+, NO^+ and O_2^+ with a series of volatile carboxylic acids and esters 137
SIFT studies of the reactions of H_3O^+, NO^+ and O_2^+ with several ethers 239
Chemical ionisation
SIFT studies of the reactions of H_3O^+, NO^+ and O_2^+ with a series of volatile carboxylic acids and esters 137
SIFT studies of the reactions of H_3O^+, NO^+ and O_2^+ with several ethers 239
Crystal effects
Isotopic fractionation during secondary ionisation mass spectrometry: crystallographic orientation effects in magnetite 115
CVD-titania/silica
Temperature-programmed desorption of water from fumed silica, titania, silica/titania, and silica/alumina 161

DTG
Temperature-programmed desorption of water from fumed silica, titania, silica/titania, and silica/alumina 161
Dication
A theoretical investigation of the electron-transfer reactions of the SiF_3^{2+} dication with the rare gases, neon, argon, krypton and xenon 57

Energetics
Selected ion flow tube studies of $H_3O^+(H_2O)_{0,1}$ reactions with sulfides and thiols 149
Energy resolved collision processes
Ion/molecule reactions, mass spectrometry and optical spectroscopy in a linear ion trap 95
Electron-transfer
A theoretical investigation of the electron-transfer reactions of the SiF_3^{2+} dication with the rare gases, neon, argon, krypton and xenon 57

Fourier transform mass spectrometry
The mechanism and thermodynamics of transesterification of acetate-ester enolates in the gas phase 25
Franck-Condon factors
Mass spectrometry as a tool to probe the gas-phase reactivity of neutral molecules 181
Fullerene complexes
Ion/molecule reactions, mass spectrometry and optical spectroscopy in a linear ion trap 95
Fullerene ions
First direct observation and identification of the smaller fragment ion in a metastable asymmetric charge separation reaction L1
Fumed silica
Temperature-programmed desorption of water from fumed silica, titania, silica/titania, and silica/alumina 161

Fumed silica/alumina
Temperature-programmed desorption of water from fumed silica, titania, silica/titania, and silica/alumina 161
Fumed silica/titania
Temperature-programmed desorption of water from fumed silica, titania, silica/titania, and silica/alumina 161
Fumed titania
Temperature-programmed desorption of water from fumes silica, titania, silica/titania, and silica/alumina 161

Gas-phase equilibria
The mechanism and thermodynamics of transesterification of acetate-ester enolates in the gas phase 25
Gas-phase kinetics
The mechanism and thermodynamics of transesterification of acetate-ester enolates in the gas phase 25
Gas phase optical spectroscopy
Ion/molecule reactions, mass spectrometry and optical spectroscopy in a linear ion trap 95

H-atom abstraction
SIFDT study of the SO_2^+/H_2 H-atom abstraction reaction 79
Hydride ion transfer
SIFT studies of the reactions of H_3O^+, NO^+ and O_2^+ with several ethers 239
Hydrogen bonding
Proton affinities of phenylalkylamines by the kinetic method 123
Hydroxide ion transfer
SIFT studies of the reactions of H_3O^+, NO^+ and O_2^+ with a series of volatile carboxylic acids and esters 137

ICR
Ion–molecule reactions relevant to Titan's ionosphere 209
Ion–molecule
SIFDT study of the SO_2^+/H_2 H-atom abstraction reaction 79
Ion–molecule reactions relevant to Titan's ionosphere 209
Ion–molecule reactions
SIFT studies of the reactions of H_3O^+, NO^+ and O_2^+ with a series of volatile carboxylic acids and esters 137
Selected ion flow tube studies of $H_3O^+(H_2O)_{0,1}$ reactions with sulfides and thiols 149
SIFT studies of the reactions of H_3O^+, NO^+ and O_2^+ with several ethers 239
Ion trap mass spectrometry
Ion/molecule reactions, mass spectrometry and optical spectroscopy in a linear ion trap 95
Ionosphere
Ion–molecule reactions relevant to Titan's ionosphere 209
Isotopic exchange
Deuterium exchange in the systems of H_2O^+/H_2O and H_3O^+/H_2O 1
Isotope mass spectrometry
Synthetic mixtures of thorium isotopes 15
Isotopic fractionation
Isotopic fractionation during secondary ionisation mass spectrometry: crystallographic orientation effects in magnetite 115
Isotopic reference materials
Synthetic mixtures of thorium isotopes 15

Kinetic isotope effects
Distinguishing the formation of $C_2D_4^+$ ions from $C_2D_6^+$ (by D_2 loss) and from $C_2D_5H^+$ (by HD loss) in a Reflectron spectrometer 47
Kinetic method
Proton affinities of phenylalkylamines by the kinetic method 123
Kinetic shift
Distinguishing the formation of $C_2D_4^+$ ions from $C_2D_6^+$ (by D_2 loss) and from $C_2D_5H^+$ (by HD loss) in a Reflectron spectrometer 47
Kinetics
Deuterium exchange in the systems of H_2O^+/H_2O and H_3O^+/H_2O 1

Laser fluence
Influence of the sample temperature on the desorption of matrix molecules and ions in matrix-assisted laser desorption ionization 89
Laser ionization
Exact determination of spatially resolved ion concentrations in focused laser beams 229
Ligand switching
Selected ion flow tube studies of $H_3O^+(H_2O)_{0,1}$ reactions with sulfides and thiols 149

Magnetite
Isotopic fractionation during secondary ionisation mass spectrometry: crystallographic orientation effects in magnetite 115
MALDI
Influence of the sample temperature on the desorption of matrix molecules and ions in matrix-assisted laser desorption ionization 89

Mass spectrometry
Perspectives of mass spectrometric elemental analysis without reference materials 221
Metastable decay
First direct observation and identification of the smaller fragment ion in a metastable asymmetric charge separation reaction L1
Methoxide ion transfer
SIFT studies of the reactions of H_3O^+, NO^+ and O_2^+ with a series of volatile carboxylic acids and esters 137
MIKE-scan technique
First direct observation and identification of the smaller fragment ion in a metastable asymmetric charge separation reaction L1
Multielement analysis
Perspectives of mass spectrometric elemental analysis without reference materials 221

Neutral reactivity
Mass spectrometry as a tool to probe the gas-phase reactivity of neutral molecules 181
Neutralization–reionization mass spectrometry
Mass spectrometry as a tool to probe the gas-phase reactivity of neutral molecules 181

One-pass TPD-TOFMS
Temperature-programmed desorption of water from fumed silica, titania, silica/titania, and silica/alumina 161

Parametric excitation of secular motion
Ion/molecule reactions, mass spectrometry and optical spectroscopy in a linear ion trap 95
1,10-Phenanthroline
A new approach to the gas phase chemistry of ternary transition metal complexes: ion-beam induced reactions 71
Photoionization
Influence of the sample temperature on the desorption of matrix molecules and ions in matrix-assisted laser desorption ionization 89
Potential barrier
SIFDT study of the SO_2^+/H_2 H-atom abstraction reaction 79
Proton affinity
Proton affinities of phenylalkylamines by the kinetic method 123
Proton exchange
Deuterium exchange in the systems of H_2O^+/H_2O and H_3O^+/H_2O 1
Proton transfer
SIFT studies of the reactions of H_3O^+, NO^+ and O_2^+ with a series of volatile carboxylic acids and esters 137
Selected ion flow tube studies of $H_3O^+(H_2O)_{0,1}$ reactions with sulfides and thiols 149
SIFT studies of the reactions of H_3O^+, NO^+ and O_2^+ with several ethers 239

Quasi-equilibrium model
Perspectives of mass spectrometric elemental analysis without reference materials 221

Radicals
Mass spectrometry as a tool to probe the gas-phase reactivity of neutral molecules 181
Rate coefficients
Selected ion flow tube studies of $H_3O^+(H_2O)_{0,1}$ reactions with sulfides and thiols 149

Sample temperature
Influence of the sample temperature on the desorption of matrix molecules and ions in matrix-assisted laser desorption ionization 89
Secondary Ion Mass Spectrometry
A new approach to the gas phase chemistry of ternary transition metal complexes: ion-beam induced reactions 71
Side chain coordination
A new approach to the gas phase chemistry of ternary transition metal complexes: ion-beam induced reactions 71
SIFDT
SIFDT study of the SO_2^+/H_2 H-atom abstraction reaction 79
SIFT
SIFT studies of the reactions of H_3O^+, NO^+ and O_2^+ with a series of volatile carboxylic acids and esters 137
Ion–molecule reactions relevant to Titan's ionosphere 209
SIFT studies of the reactions of H_3O^+, NO^+ and O_2^+ with several ethers 239
Silicon trifluoride
A theoretical investigation of the electron-transfer reactions of the SiF_3^{2+} dication with the rare gases, neon, argon, krypton and xenon 57
SIMS
Isotopic fractionation during secondary ionisation mass spectrometry: crystallographic orientation effects in magnetite 115

Ternary transition metal complexes
A new approach to the gas phase chemistry of ternary transition metal complexes: ion-beam induced reactions 71

Thorium
Synthetic mixtures of thorium isotopes 15
Ti:Sa laser
Exact determination of spatially resolved ion concentrations in focused laser beams 229
Titan
Ion–molecule reactions relevant to Titan's ionosphere 209
TOF
Distinguishing the formation of $C_2D_4^+$ ions from $C_2D_6^+$ (by D_2 loss) and from $C_2D_5H^+$ (by HD loss) in a Reflectron spectrometer 47
Exact determination of spatially resolved ion concentrations in focused laser beams 229
TPEPICO
Distinguishing the formation of $C_2D_4^+$ ions from $C_2D_6^+$ (by D_2 loss) and from $C_2D_5H^+$ (by HD loss) in a Reflectron spectrometer 47
Trace gas analysis
SIFT studies of the reactions of H_3O^+, NO^+ and O_2^+ with a series of volatile carboxylic acids and esters 137
SIFT studies of the reactions of H_3O^+, NO^+ and O_2^+ with several ethers 239
Transesterification of ester enolates
The mechanism and thermodynamics of transesterification of acetate-ester enolates in the gas phase 25

Volume expansion
Exact determination of spatially resolved ion concentrations in focused laser beams 229

Water desorption
Temperature-programmed desorption of water from fumed silica, titania, silica/titania, and silica/alumina 161
